Overview

This policy has been written with regard to:

- Keeping Children Safe in Education (September 2022) (KCSIE)
- KCSIE incorporates the additional statutory guidance, Disqualification under the Childcare Act 2006 (September 2018)
- KCSIE, from September 2022, incorporates the (now withdrawn) DfE guidance Sexual violence and sexual harassment between children in schools and colleges
- KCSIE's Annex B contains additional information about specific forms of abuse and safeguarding issues, including, eg, children missing from education, cybercrime, mental health, preventing radicalisation, and sexual violence and sexual harassment between children in schools and colleges.
- Working Together to Safeguard Children (September 2018 – updated in September 2022 but without changing the date on the published version) (WT)
- WT refers to the non-statutory but important advice: Information sharing (2018)
- Relationships Education, Relationships and Sex Education (RSE) and Health Education (2019, updated September 2021) (see above: paragraph 2A)
- Prevent Duty Guidance: for England and Wales (July 2015, updated April 2021) (Prevent). Prevent is supplemented by non-statutory advice and a briefing note:
- The Prevent duty: Departmental advice for schools and childminders (June 2015)
- The use of social media for on-line radicalisation (July 2015)

The policy is available on the school website or on request from the school office. It is reviewed annually and updated if needed so that it is kept up to date with safeguarding issues as they emerge and evolve.

Nazene Danielle School of Performing Arts (NDSOPA) is fully committed to safeguarding the welfare of all children and young people up to the age of 18. We recognise our responsibility to take all reasonable steps to promote safe practice and to protect children from harm, abuse and exploitation.

Nazene Danielle School of Performing Arts (NDSOPA) acknowledges its duty to act appropriately to any allegations, reports or suspicions of abuse. All staff and volunteers will work together to encourage the development of an ethos which embraces difference and diversity and respects the rights of children, young people and adults.

Nazene Danielle School of Performing Arts (NDSOPA) recognises its duty of care under the Children and Young Persons Act 1963, the Children (Performances and Activities) (England) Regulations 2014, the Children Act 1989 and Working Together to Safeguard Children 2015.

Nazene Danielle School of Performing Arts (NDSOPA) will ensure that:

- The welfare of the child is paramount
- All children, whatever their age, culture, disability, gender, language, racial origin, religious beliefs and/or sexual identity have the right to protection from abuse
- All suspicions and allegations of abuse will be taken seriously and responded to swiftly and appropriately

Nazene Danielle School of Performing Arts (NDSOPA) will ensure that:

- Everyone will be treated with respect and dignity
- The welfare of each child will always be put first
- Enthusiastic and constructive criticism will be given to pupils rather than negative criticism
- Bullying will not be accepted or condoned
- All adult members will provide a positive role model
- Action will be taken to stop any inappropriate behaviour
- It will comply with health & safety legislation
- It will keep informed of changes in legislation and policies for the protection of children
- It will undertake relevant professional development and training
- It will ensure all contact and medical details for every child is up to date and available at the place of teaching or performance.
- Staff will receive dedicated safeguarding training.

Nazene Danielle School of Performing Arts (NDSOPA) has a designated Safeguarding lead who is in charge of ensuring that the child protection policy is adhered to.

The Designated Safeguarding Lead (DSL) is **Nazene Langfield** and she can be contacted on: 07701049837

There is also a Deputy DSL who is **Suzanne Langfield** and she can be contacted on 0151 259 0807

In implementing this policy Nazene Danielle School of Performing Arts (NDSOPA) will:

- Ensure that all workers/members understand their legal and moral responsibility to protect children and young people from harm, abuse and exploitation.
- Ensure that all workers/members and volunteers understand their duty to report concerns that arise about a child or young person, or a worker's conduct towards a child or young person to the Designated Safeguarding Lead.
- The Designated Safeguarding Lead will refer any child protection concerns to the statutory child protection agencies (i.e. Police and/or Children's Social Care).

- Children, young people and parents will be informed of who the Designated Safeguarding Lead and Deputy are and be able to raise any safeguarding concerns & know that these will be taken seriously and acted upon.
- Ensure that workers/members will work implemented in a consistent and equitable manner in line with the safer working practice guidance.

Introduction

Nazene Danielle School of Performing Arts (NDSOPA) is committed to providing a safe and secure environment for children, staff and visitors and promoting a climate where children and adults will feel confident about sharing any concerns which they may have about their own safety or the well-being of others. We aim to safeguard and promote the welfare of children by protecting them from maltreatment; preventing impairment of children's mental and physical health or development; ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and taking action to enable all children to have the best outcomes.

The School's Child Protection (CP) policy draws upon duties conferred by the Children Acts 1989 and 2004, The Children and Families Act 2014, the 2002 Education Act, The Education (Independent School Standards) Regulations 2014 (for independent schools), The Non-Maintained Special Schools (England) Regulations 2015 (for non-maintained special schools) and the guidance contained in "Working Together to Safeguard Children", the DfE's statutory guidance "Keeping Children Safe in Education 2022" (KCSIE 2022).

We also have regard to the advice contained in DfE's 'What to do if you're worried a child is being abused' and 'Information Sharing – Advice for practitioners'. The policy is applicable to all on and off-site activities undertaken by pupils whilst they are the responsibility of the School. We will ensure that all staff read at least Part one of DfE guidance "Keeping Children Safe in Education 2022" (KCSIE 2022) and that mechanisms are in place to assist staff to understand and discharge their role and responsibilities as set out in Part one.

Policy Aims

The purpose of this policy is to:

- Identify the names of responsible persons in the school and explain the purpose of their role
- Describe what should be done if anyone in the school has a concern about the safety and welfare of a child who attends the school
- Identify the particular attention that should be paid to those children who fall into a category that might be deemed "vulnerable"
- Set out expectations in respect of training
- Ensure that those responsible for recruitment are aware of how to apply safeguarding principles in employing staff

- Set out expectations of how to ensure children are safeguarded when there is potential to come into contact with non-school staff, e.g. volunteers, contractors etc.
- Outline how complaints against staff will be handled
- Set out expectations regarding record keeping
- Clarify how children will be kept safe through the everyday life of the school
- Outline how the implementation of this policy will be monitored.

This policy is consistent with all other policies and should in particular be read in conjunction with the following policies relevant to the safety and welfare of children:

- Anti-Bullying Policy
- Health and Safety Policy
- Code of Conduct
- Behavioural
- SEND Policy

Responsibilities and Immediate Action

Safeguarding and promoting the welfare of children in our school is the responsibility of the whole school community. All adults working in this School (including visiting staff, supply teachers, volunteers and students on placement) are required to report instances of actual or suspected child abuse or neglect to the Designated Safeguarding Lead who is a member of the school's leadership team. Our local Safeguarding Children Partnership is Liverpool and

The Designated Safeguarding Lead is: Nazene Langfield

The Deputy Designated Safeguarding Lead is: Suzanne Langfield

Safeguarding referrals should be made to Liverpool Safeguarding Children Partnership (LSCP) by calling their Careline on 0151 233 3700. Their web address is <https://liverpoolscp.org.uk/scp>

The school will operate safeguarding procedures in line with locally agreed multi-agency safeguarding arrangements put in place by the safeguarding partners.

The Designated Safeguarding Lead (DSL) takes lead responsibility for safeguarding and child protection and provides advice and support to other staff on child welfare and child protection matters, supports other staff to do so and contributes to the assessment of children. The DSL is also the named person for LAC.

DSL is the first point of contact for external agencies that are pursuing Child Protection investigations and co-ordinates the school's representation at CP conferences and Core Group meetings (including the submission of written reports for conferences). When an individual concern/incident is brought to the notice of the Designated Safeguarding Lead, they will be responsible for deciding upon whether or not this should be reported to other agencies as a safeguarding issue.

Where there is any doubt as to the seriousness of this concern, or disagreement between the Designated Safeguarding Lead and the member of staff reporting the concern, advice will be sought from the Deputy Designated Safeguarding Lead (DDSL) or the LA's Strategic Lead Officer for safeguarding in education services. If a child is in immediate danger or is at risk of harm, a referral will be made to the LA and/or the police immediately.

Although all staff should be aware of the process for making referrals to children's social care and for statutory assessments that may follow a referral, along with the role they might be expected to play in such assessments, the DSL (and any deputies) are most likely to have a complete safeguarding picture and be the most appropriate person to advise on the response to safeguarding concerns. However, **ANYONE** can make a referral. The DSL or a deputy will always be available to discuss safeguarding concerns. If in exceptional circumstances, the DSL (or deputy) is not available, this should not delay appropriate action being taken. Staff should consider speaking to a member of the senior leadership team and/or take advice from local children's social care. In these circumstances, any action taken should be shared with the DSL (or deputy) as soon as is practically possible.

Emergency Contacts for Children

The school should have at least two emergency contacts for every child in the school in case of emergencies, and in case there are welfare concerns at home.

The DSL and deputy DSL have regular meetings to ensure proper oversight of safeguarding.

Types of Child Abuse and Neglect

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused by other children or adults, in a family or in an institutional or community setting by those known to them or, more rarely, by others.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Indicators of Physical Abuse

1. Bite marks
2. Ligature (cord, string, rope etc.) marks
3. Burns and scalds
4. Cigarette Burns
5. Poisoning
6. Fractures

7. Internal injuries
8. Shaking injuries
9. Bruising

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Indicators of Emotional Abuse

1. Degradation
2. Terrorising
3. Isolation
4. Corruption
5. Exploiting
6. Denying
7. Rejection
8. Bullying

9. Mocking
10. Name Calling
11. Teasing
12. Using sarcasm
13. Humiliation
14. Criticising

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Indicators of Sexual Abus

1. Physical Signs - Fingertip bruising on inside of thigh, itching, soreness, repeated urinary tract infections, bleeding or injury in genital area.
2. Behavioural and Emotional Signs - Withdrawn, wetting or soiling, sexual knowledge inappropriate to age, excessive masturbation, seductive behaviour, kissing inappropriately, hints at sexual behaviour in words/drawing, self - destructive behaviour, running away.

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

1. Impairment of growth
2. Pot belly, thin buttocks
3. Mottled hands and feet
4. Poor clothing, neglected appearance

5. Abnormally voracious appetite
6. Dry sparse hair
7. Lack of supervision
8. Failure to seek medical advice
9. Failure to attend school
10. Lack of stimulation
11. Unhygienic home conditions
12. 'Frozen watchfulness'

Safeguarding incidents and/or behaviours can be associated with factors outside the school or college and/or can occur between children outside of these environments. All staff, but especially the DSL and DDSLs will be considering whether children are at risk of abuse or exploitation in situations outside their families.

Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual exploitation, criminal exploitation, and serious youth violence. This is known as Contextual Safeguarding, which simply means assessments of children should consider whether wider environmental factors are present in a child's life that are a threat to their safety and/or welfare.

Other Forms of Abuse

In addition to these types of abuse and neglect, members of staff will also be alert to following specific safeguarding issues:

Child abduction and community safety incidents

Child abduction is the unauthorised removal or retention of a minor from a parent or anyone with legal responsibility for the child. Child abduction can be committed by parents or other family members; by people known but not related to the victim (such as neighbours, friends and acquaintances); and by strangers. Other community safety incidents in the vicinity of a school can raise concerns amongst children and parents, for example, people loitering nearby or unknown adults engaging children in conversation. As children get older and are granted more independence (for example, as they start walking to school on their own) it is important they are given practical advice on how to keep themselves safe. Many schools provide outdoor-safety lessons run by teachers or by local police staff. It is important that lessons focus on building children's confidence and abilities rather than simply warning them about all strangers. Further information is available at: www.actionagainstabduction.org and www.clevernevergoes.org.

Child Criminal Exploitation (CCE) and Child Sexual Exploitation (CSE)

We know that different forms of harm often overlap, and that perpetrators may subject children and young people to multiple forms of abuse, such as criminal exploitation (including county lines) and sexual exploitation. In some cases the exploitation or abuse will be in exchange for something the victim needs or wants (for example, money, gifts or affection), and/or will be to the financial benefit or other advantage, such as increased status, of the perpetrator or facilitator. Children can be exploited by adult males or females, as individuals or in groups. They may also be exploited by other children, who themselves may be experiencing exploitation – where this is the case, it is important that the child perpetrator is also recognised as a victim. Whilst the age of the child may be a contributing factor for an imbalance of power, there are a range of other factors that could make a child more vulnerable to exploitation, including, sexual identity, cognitive ability, learning difficulties, communication ability, physical strength, status, and access to economic or other resources. Some of the following can be indicators of both child criminal and sexual exploitation where children:

- appear with unexplained gifts, money or new possessions
- associate with other children involved in exploitation
- suffer from changes in emotional well-being
- misuse alcohol and other drugs
- go missing for periods of time or regularly come home late, and
- regularly miss school or education or do not take part in education. Children who have been exploited will need additional support to help keep them in education. Child Sexual Exploitation (CSE) can be a one-off occurrence or a series of incidents over time and range from opportunistic to complex organised abuse. It can involve force and/or enticement-based methods of compliance and may, or may not, be accompanied by violence or threats of violence. Some additional specific indicators that may be present in CSE are children who:
 - have older boyfriends or girlfriends; and
 - suffer from sexually transmitted infections, display sexual behaviours beyond expected sexual development or become pregnant.

Further information on signs of a child's involvement in sexual exploitation is available in Home Office guidance:

Child sexual exploitation: guide for practitioners

County lines

County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs using dedicated mobile phone lines or other form of "deal line". This activity can happen locally as well as across the UK - no specified distance of travel is required. Children and vulnerable adults are exploited to move, store and sell drugs and money. Offenders will often use coercion,

intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. Children can be targeted and recruited into county lines in a number of locations including any type of schools (including special schools), further and higher educational institutions, pupil referral units, children's homes and care homes. Children are also increasingly being targeted and recruited online using social media. Children can easily become trapped by this type of exploitation as county lines gangs can manufacture drug debts which need to be worked off or threaten serious violence and kidnap towards victims (and their families) if they attempt to leave the county lines network.

A number of the indicators for CSE and CCE as detailed above may be applicable to where children are involved in county lines. Some additional specific indicators that may be present where a child is criminally exploited through involvement in county lines are children who:

- go missing and are subsequently found in areas away from their home
- have been the victim or perpetrator of serious violence (e.g. knife crime)
- are involved in receiving requests for drugs via a phone line, moving drugs, handing over and collecting money for drugs
- are exposed to techniques such as 'plugging', where drugs are concealed internally to avoid detection
- are found in accommodation that they have no connection with, often called a 'trap house or cuckooing' or hotel room where there is drug activity
- owe a 'debt bond' to their exploiters
- have their bank accounts used to facilitate drug dealing.

Further information on the signs of a child's involvement in county lines is available in guidance published by the Home Office and The Children's Society County Lines Toolkit For Professionals

Child on child abuse

Children are capable of abusing their peers. This can take different forms, such as bullying (including cyberbullying), physical abuse (such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm; violence, particularly pre-planned, forcing other children to use drugs or alcohol, initiation/hazing type violence and rituals), emotional abuse (blackmail or extortion, threats and intimidation), sexual violence, such as rape, assault by penetration and sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, sexting, sexual abuse (indecent exposure, indecent touching or serious sexual assaults, forcing other children to watch pornography or take part in

sexting) and sexual exploitation (encouraging other children to engage in inappropriate sexual behaviour, having an older boyfriend/girlfriend, associating with unknown adults or other sexually exploited children, staying out overnight, photographing or videoing other children performing indecent acts) and upskirting, which typically involves taking a picture under a person's clothing without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification or cause the victim humiliation, distress or alarm. Upskirting is now a criminal offence. Although it is more likely that girls will be victims and boys perpetrators, all peer on peer abuse is unacceptable and will be taken seriously. We do not tolerate these or pass them off as "banter", "just having a laugh" or "part of growing up".

The school has a strong commitment to an anti-bullying policy and will consider all coercive acts and peer on peer abuse within a Child Protection context. We recognise that some pupils will sometimes negatively affect the learning and wellbeing of other pupils and their behaviour will be dealt with under the school's behaviour policy. As a school, we will minimise the risk of allegations against other pupils by providing a developmentally appropriate PSHE syllabus which develops pupils' understanding of acceptable behaviour and keeping themselves safe, having systems in place for any pupil to raise concerns with staff, knowing that they will be listened to, believed and valued, delivering targeted work on assertiveness and keeping safe to those pupils identified as being at risk, developing robust risk assessments and providing targeted work for pupils identified as being a potential risk to other pupils. Any possible peer on peer abuse case will be shared with the DSL with a view to referring to appropriate agencies following the referral procedures. We also note the DfE's advice and guidance on Preventing and Tackling Bullying. *See child on child abuse policy*

Children and the court system

Children are sometimes required to give evidence in criminal courts, either for crimes committed against them or for crimes they have witnessed. There are two age appropriate guides to support children 5-11-year olds and 12-17 year olds. The guides explain each step of the process, support and special measures that are available. There are diagrams illustrating the courtroom structure and the use of video links is explained. Making child arrangements via the family courts following separation can be stressful and entrench conflict in families. This can be stressful for children. The Ministry of Justice has launched an online child arrangements information tool with clear and concise information on the dispute resolution service. This may be useful for some parents and carers.

Children missing from education

All staff should be aware that children going missing, particularly repeatedly, can act as a vital warning sign of a range of safeguarding possibilities. This may include abuse and neglect, which may include sexual abuse or exploitation and can also be a sign of child 143 criminal exploitation including involvement in county lines. It may indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of female genital mutilation, 'honour'-based abuse or risk of forced marriage. Early intervention is essential to identify the existence of any underlying safeguarding risk and to help prevent the risks of a child going missing in future. It is important that staff are aware of their school's or college's unauthorised absence and children missing from education procedures.

If the school identifies that a child is missing from school and without communication from parents, the Head or nominated member of staff must:

Inform the local authority of any pupil who fails to attend school regularly, or has been absent without the school's permission for a continuous period of 10 school days or more, at such intervals as are agreed between the school and the local authority (or in default of such agreement, at intervals determined by the Secretary of State).

In addition, Schools must notify their 'own' local authority when they remove or add a pupil's name to the admissions register at non-standard transitions, i.e. where a compulsory school-aged child leaves a school before completing the school's final year or joins a school after the beginning of the school's first year.

Children with family members in prison

Approximately 200,000 children in England and Wales have a parent sent to prison each year. These children are at risk of poor outcomes including poverty, stigma, isolation and poor mental health. The National Information Centre on Children of Offenders, NICCO provides information designed to support professionals working with offenders and their children, to help mitigate negative consequences for those children.

Cybercrime

Cybercrime is criminal activity committed using computers and/or the internet. It is broadly categorised as either 'cyber-enabled' (crimes that can happen off-line but are enabled at scale and at speed on-line) or 'cyber dependent' (crimes that can be committed only by using a computer). Cyber-dependent crimes include:

- unauthorised access to computers (illegal 'hacking'), for example accessing a school's computer network to look for test paper answers or change grades awarded
- 'Denial of Service' (Dos or DDoS) attacks or 'booting'. These are attempts to make a computer, network or website unavailable by overwhelming it with internet traffic from multiple sources, and,
- making, supplying or obtaining malware (malicious software) such as viruses, spyware, ransomware, botnets and Remote Access Trojans with the intent to commit further offence, including those above.

Children with particular skills and interest in computing and technology may inadvertently or deliberately stray into cyber-dependent crime.

If there are concerns about a child in this area, the designated safeguarding lead (or a deputy), should consider referring into the Cyber Choices programme. This is a nationwide police programme supported by the Home Office and led by the National Crime Agency, working with regional and local policing. It aims to intervene where young people are at risk of committing, or being drawn into, low-level cyber-dependent offences and divert them to a more positive use of their skills and interests. Note that Cyber Choices does not currently cover 'cyber-enabled' crime such as fraud, purchasing of illegal drugs

on-line and child sexual abuse and exploitation, nor other areas of concern such as on-line bullying or general on-line safety. Additional advice can be found at: Cyber Choices, 'NPCC- When to call the Police' and National Cyber Security Centre - NCSC.GOV.UK.

Domestic abuse

The Domestic Abuse Act 2021 received Royal Assent on 29 April 2021. The Act introduces the first ever statutory definition of domestic abuse and recognises the impact of domestic abuse on children, as victims in their own right, if they see, hear or experience the effects of abuse. The statutory definition of domestic abuse, based on the previous cross-government definition, ensures that different types of relationships are captured, including ex-partners and family members. The definition captures a range of different abusive behaviours, including physical, emotional and economic abuse and coercive and controlling behaviour. Under the statutory definition, both the person who is carrying out the behaviour and the person to whom the behaviour is directed towards must be aged 16 or over and they must be "personally connected" (as defined in section 2 of the 2021 Act).

Types of domestic abuse include intimate partner violence, abuse by family members, teenage relationship abuse and child to parent abuse. Anyone can be a victim of domestic abuse, regardless of sexual identity, age, ethnicity, socio-economic status, sexuality or background and domestic abuse can take place inside or outside of the home. The government will issue statutory guidance to provide further information for those working with domestic abuse victims and perpetrators, including the impact on children.

All children can witness and be adversely affected by domestic abuse in the context of their home life where domestic abuse occurs between family members. Experiencing domestic abuse can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

Young people can also experience domestic abuse within their own intimate relationships. This form of child-on-child abuse is sometimes referred to as 'teenage relationship abuse'. Depending on the age of the young people, this may not be recognised in law under the statutory definition of 'domestic abuse' (if one or both parties are under 16). However, as with any child under 18, where there are concerns about safety or welfare, child safeguarding procedures should be followed and both young victims and young perpetrators should be offered support.

Operation Encompass

Operation Encompass operates in all police forces across England. It helps police and schools work together to provide emotional and practical help to children. The system ensures that when the police are called to an incident of domestic abuse, where there are children in the household who have experienced the domestic incident, the police will inform the key adult (usually the designated safeguarding lead (or deputy)) in school before the child or children arrive at school the following day. This ensures that the school has up to date relevant information about the child's circumstances and can

enable immediate support to be put in place, according to the child's needs. Operation Encompass does not replace statutory safeguarding procedures. Where appropriate, the police and/or schools should make a referral to local authority children's social care if they are concerned about a child's welfare. More information about the scheme and how schools can become involved is available on the Operation Encompass website.

Operation Encompass provides an advice and helpline service for all staff members from educational settings who may be concerned about children who have experienced domestic abuse. The helpline is available 8AM to 1PM, Monday to Friday on 0204 513 9990 (charged at local rate). National Domestic Abuse Helpline Refuge runs the National Domestic Abuse Helpline, which can be called free of charge and in confidence, 24 hours a day on 0808 2000 247. Its website provides guidance and support for potential victims, as well as those who are worried about friends and loved ones. It also has a form through which a safe time from the team for a call can be booked. Additional advice on identifying children who are affected by domestic abuse and how they can be helped is available at:

- NSPCC- UK domestic-abuse Signs Symptoms Effects
- Refuge what is domestic violence/effects of domestic violence on children
- Safe Young Lives: Young people and domestic abuse | Safelives
- Domestic abuse: specialist sources of support (includes information for adult victims, young people facing abuse in their own relationships and parents experiencing child to parent violence/abuse)
- Operation Encompass (includes information for schools on the impact of domestic abuse on children).

Homelessness

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. The designated safeguarding lead (and any deputies) should be aware of contact details and referral routes into the Local Housing Authority so they can raise/progress concerns at the earliest opportunity. Indicators that a family may be at risk of homelessness include household debt, rent arrears, domestic abuse and anti-social behaviour, as well as the family being asked to leave a property. Whilst referrals and/or discussion with the Local Housing Authority should be progressed as appropriate, and in accordance with local procedures, this does not, and should not, replace a referral into local authority children's social care where a child has been harmed or is at risk of harm.

The Homelessness Reduction Act 2017 places a new legal duty on English councils so that everyone who is homeless or at risk of homelessness will have access to meaningful help including an assessment of their needs and circumstances, the development of a personalised housing plan, and work to help them retain their accommodation or find a new place to live. The following factsheets usefully summarise the new duties: Homeless Reduction Act Factsheets. The new duties shift the focus to early intervention and encourages those at risk to seek support as soon as possible, before they are facing a homelessness crisis.

In most cases school and college staff will be considering homelessness in the context of children who live with their families, and intervention will be on that basis. However, it should also be recognised in some cases 16 and 17 year olds could be living independently from their parents or guardians, for example through their exclusion from the family home, and will require a different level of intervention

and support. Local authority children's social care will be the lead agency for these children and the designated safeguarding lead (or a deputy) should ensure appropriate referrals are made based on the child's circumstances. The Department for Levelling Up, Housing and Communities have published joint statutory guidance on the provision of accommodation for 16 and 17 year olds who may be homeless and/or require accommodation.

Mental health

Where children have suffered abuse and neglect, or other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. It is key that staff are aware of how these children's experiences, can impact on their mental health, behaviour, and education. More information can be found in the Mental health and behaviour in schools guidance, colleges may also wish to follow this guidance as best practice. Public Health England has produced a range of resources to support secondary school teachers to promote positive health, wellbeing and resilience among children. See Every Mind Matters for links to all materials and lesson plans.

Modern Slavery and the National Referral Mechanism

Modern slavery encompasses human trafficking and slavery, servitude and forced or compulsory labour. Exploitation can take many forms, including: sexual exploitation, forced labour, slavery, servitude, forced criminality and the removal of organs. Further information on the signs that someone may be a victim of modern slavery, the support available to victims and how to refer them to the NRM is available in Statutory Guidance. Modern slavery: how to identify and support victims - GOV.UK

Preventing radicalisation

Children are vulnerable to extremist ideology and radicalisation. Similar to protecting children from other forms of harms and abuse, protecting children from this risk should be a part of a schools or colleges safeguarding approach. Although there is no single way of identifying whether a child is likely to be susceptible to an extremist ideology, there are possible indicators that should be taken into consideration alongside other factors and contexts. Background factors combined with specific influences such as family and friends may contribute to a child's vulnerability.

Similarly, radicalisation can occur through many different methods (such as social media or the internet) and settings (such as within the home). However, it is possible to protect vulnerable people from extremist ideology and intervene to prevent those at risk of radicalisation being radicalised. As with other safeguarding risks, staff should be alert to changes in children's behaviour, which could indicate that they may be in need of help or protection. Staff should use their judgement in identifying children who might be at risk of radicalisation and act proportionately which may include the designated safeguarding lead (or deputy) making a Prevent referral. Although not a cause for concern on their own, possible indicators when taken into consideration alongside other factors or context may be a sign of being radicalised. Further information and a list of such indicators can be found at Radicalisation and Extremism - Examples and Behavioural Traits (educateagainsthate.com)

The Prevent duty

All schools and colleges are subject to a duty under section 26 of the Counter-Terrorism and Security Act 2015 (the CTSA 2015), in the exercise of their functions, to have “due regard to the need to prevent people from being drawn into terrorism”. This duty is known as the Prevent duty. The Prevent duty should be seen as part of schools’ and colleges’ wider safeguarding obligations. Designated safeguarding leads (and deputies) and other senior leaders in schools should familiarise themselves with the revised Prevent duty guidance: for England and Wales, especially paragraphs 57-76, which are specifically concerned with schools (and also covers childcare). Designated safeguarding leads (and deputies) and other senior leaders in colleges should familiar themselves with the Prevent duty guidance: for further education institutions in England and Wales. The guidance is set out in terms of four general themes: risk assessment, working in partnership, staff training, and IT policies. The school’s or college’s designated safeguarding lead (and any deputies) are aware of local procedures for making a Prevent referral.

Channel

Channel is a voluntary, confidential support programme which focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn into terrorism. Prevent referrals may be passed to a multi-agency Channel panel, which will discuss the individual referred to determine whether they are vulnerable to being drawn into terrorism and consider the appropriate support required. A representative from the school or college may be asked to attend the Channel panel to help with this assessment. An individual’s engagement with the programme is entirely voluntary at all stages. The designated safeguarding lead (or deputy) should consider if it would be appropriate to share any information with the new school or college in advance of a child leaving. For example, information that would allow the new school or college to continue supporting victims of abuse or those who are currently receiving support through the ‘Channel’ programme and have that support in place for when the child arrives. Statutory guidance on Channel is available at: Channel guidance.

At our school we are committed to protecting our pupils from the malign influence of violent political and religious extremism. To support this, all staff have received specialist training from relevant external agencies.

Staff must be particularly vigilant and will report any concerns they have about radicalisation to the DSL. The DSL will then make a referral to the relevant authorities in accordance with Liverpool’s Safeguarding Partnership guidance

This policy describes the activities that the School will undertake in order to ensure that pupils attending the School are safeguarded against being influenced by those who hold violent and extreme views. These activities and responsibilities are linked to the duty to promote **British Values** in School

1. Teach material which emphasis the strengths, weaknesses of democracy in contrast to other forms of government in other countries and how democracy works in Britain.

2. Ensure that all pupils within the school have a voice that is listened to, for example by having democratic processes such as the school council whose members are voted in by the pupils;
3. Organise visits to local councils, Parliament and places of worship of other faiths, and encourage contacts with those of other faiths, in political or local office;
4. Use opportunities such as general or local elections to hold whole school mock elections whereby pupils can learn how to argue and defend points of view.
5. Use teaching resources from a wide variety of sources to help pupils to understand a range of faiths, and beliefs such as atheism and humanism;
6. Work with the Local Police Prevent Team to provide adequate training for staff, pupils and parents.

Sexual violence and sexual harassment between children in schools and colleges

Sexual violence and sexual harassment can occur between two children of any age and sex from primary to secondary stage and into colleges. It can also occur online. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment and will be exacerbated if the alleged perpetrator(s) attends the same school or college. Sexual violence and sexual harassment exist on a continuum and may overlap, they can occur online and face to face (both physically and verbally) and are never acceptable.

It is essential that all victims are reassured that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report. Detailed advice is available in Part five of this guidance.

Serious Violence

There are a number of indicators, which may signal children are at risk from, or are involved with, serious violent crime. These may include:

increased absence from school

- a change in friendships or relationships with older individuals or groups
- a significant decline in performance
- signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries

- Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation.

The likelihood of involvement in serious violence may be increased by factors such as:

- being male
- having been frequently absent or permanently excluded from school
- having experienced child maltreatment and having been involved in offending, such as theft or robbery.

A fuller list of risk factors can be found in the Home Office's Serious Violence Strategy. Professionals should also be aware that violence can often peak in the hours just before or just after school, when pupils are travelling to and from school. These times can be particularly risky for young people involved in serious violence.

Advice for schools and colleges is provided in the Home Office's Criminal exploitation of children and vulnerable adults: county lines guidance. The Youth Endowment Fund (YEF) Toolkit sets out the evidence for what works in preventing young people from becoming involved in violence.

Home Office funded Violence Reduction Units (VRU) operate in the 20 police force areas across England and Wales that have the highest volumes of serious violence, as measured by hospital admissions for injury with a sharp object. A list of these locations can be found here. As the strategic co-ordinators for local violence prevention, each VRU is mandated to include at least one local education representative within their Core Membership group, which is responsible for setting the direction for VRU activity. Schools and educational partners within these areas are encouraged to reach out to their local VRU, either directly or via their education Core Member, to better ingrain partnership working to tackle serious violence across local areas and ensure a joined up approach to young people across the risk spectrum.

The Police, Crime, Sentencing and Courts Act will introduce early in 2023 a new duty on a range of specified authorities, such as the police, local government, youth offending teams, health and probation services, to work collaboratively, share data and information, and put in place plans to prevent and reduce serious violence within their local communities. Educational authorities and prisons/youth custody authorities will be under a separate duty to co-operate with core duty holders when asked, and there will be a requirement for the partnership to consult with all such institutions in their area.

The Duty is not intended to replace or duplicate existing safeguarding duties. Local partners may choose to meet the requirements of the Duty through existing multi-agency structures, such as multi-agency safeguarding arrangements, providing the correct set of partners are involved

So-called 'honour'-based abuse (including Female Genital Mutilation and Forced Marriage)

So-called 'honour'-based abuse (HBA) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. Abuse committed in the context of

preserving 'honour' often involves a wider network of family or community pressure and can include multiple perpetrators. It is important to be aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take. All forms of HBA are abuse (regardless of the motivation) and should be handled and escalated as such. Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a child being at risk of HBA, or already having suffered HBA.

Actions

If staff have a concern regarding a child who might be at risk of HBA or who has suffered from HBA, they should speak to the designated safeguarding lead (or deputy). As appropriate, the designated safeguarding lead (or deputy) will activate local safeguarding procedures, using existing national and local protocols for multi-agency liaison with the police and local authority children's social care.

It is mandatory for all teachers to report any suspected case of FGM.

Forced marriage

Forcing a person into a marriage is a crime in England and Wales. A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent or where they cannot consent (if they have learning disabilities, for example). Nevertheless, some perpetrators use perceived cultural practices to coerce a person into marriage. Schools and colleges can play an important role in safeguarding children from forced marriage.

The Forced Marriage Unit (FMU) has created: Multi-agency practice guidelines: handling cases of forced marriage (pages 75-80 of which focus on the role of schools and colleges) and, Multi-agency statutory guidance for dealing with forced marriage, which can both be found at [The right to choose: government guidance on forced marriage - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/guidance/the-right-to-choose) School and college staff can contact the Forced Marriage Unit if they need advice or information: Contact: 020 7008 0151 or email fmu@fcdo.gov.uk.

Referrals

Where there is a safeguarding concern, we take into account the child's wishes and feelings when determining what action to take and what services to provide. We have systems in place for children to express their views and give feedback. We acknowledge that children who are affected by abuse or neglect may demonstrate their needs and distress through their words, actions, behaviour, demeanour, school work or other children. Ultimately, all our systems and processes operate with the best interests of the child at heart.

Referrals to services regarding concerns about a child or family typically fall into three categories:

- Early Help Services;
- Child in need - Section 17 (Children Act 1989) referrals;
- Child protection - Section 47 (Children Act 1989) referrals.

Safeguarding referrals should be made to Liverpool Safeguarding Children Partnership (LSCP) by calling their Careline on 0151 233 3700. Their web address is <https://liverpoolscp.org.uk/scp>

Further steps will then be taken incorporating the Schools DSL and LA, if deemed necessary upon referral.

The parent/carer will normally be contacted to obtain their consent before a referral is made. However, if the concern involves, for example alleged or suspected child sexual abuse, Honour Based Abuse, fabricated or induced illness or the Designated Safeguarding Lead has reason to believe that informing the parent at this stage might compromise the safety of the child or a staff member, nothing should be said to the parent/carer ahead of the referral, but a rationale for the decision to progress without consent should be provided with the referral.

When we make a referral, the local authority should make a decision, within one working day of a referral being made, about the type of response that is required and should let us, as the referrer, know the outcome. We will follow up if this information is not forthcoming. If, after a referral, the child's situation does not appear to be improving, we will consider following local escalation procedures to ensure that the concerns have been addressed and, most importantly, that the child's situation improves.

The Early Help Referral Form will be used to request additional early help for a family when the needs of a child are beyond the level of support that can be provided by universal services. This can be obtained by accessing the 'Children at Risk Multi-Agency Referral Form' for Liverpool at

<https://ehd.liverpool.gov.uk/kb5/liverpool/fsd/service.page?id=rW4tRmx93fs&familychannel=5>

Or

<https://liverpool.gov.uk/referrals/childrens-social-care-referrals/make-an-urgent-marf-referral/>

You can also make an immediate referral by calling 0151 233 3700 or by clicking on the 'Contact Us' link at the above address.

In circumstances where a child has an unexplained or suspicious injury that requires urgent medical attention, the CP referral process should not delay the administration of first aid or emergency medical assistance. If a pupil is thought to be at immediate risk because of parental violence, intoxication, substance abuse, mental illness or threats to remove the child during the school day, for example, urgent Police intervention will be requested. Where a child sustains a physical injury or is distressed as a result of reported chastisement, or alleges that they have been chastised by the use of an implement or substance, this will immediately be reported for investigation.

All parents applying for places at this school will be informed of our safeguarding responsibilities and the existence of this policy. In situations where pupils sustain injury or are otherwise affected by an accident or incident whilst they are the responsibility of the school, parents will be notified of this as soon as possible.

Nazene Danielle School of Performing Arts (NDSOPA) recognises the need to be alert to the risks posed by strangers or others (including the parents or carers of other pupils) who may wish to harm children in school or pupils travelling to and from school and will take all reasonable steps to lessen such risks.

Early Help Assessment

Any child may benefit from early help, but all school and college staff should be particularly alert to the potential need for early help for a child who:

- is disabled or has certain health conditions and has specific additional needs
- has special educational needs (whether or not they have a statutory Education, Health and Care Plan)
- has a mental health need
- is a young carer
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups or county lines
- is frequently missing/goes missing from care or from home
- is at risk of modern slavery, trafficking, sexual or criminal exploitation
- is at risk of being radicalised or exploited • has a family member in prison, or is affected by parental offending
- is in a family circumstance presenting challenges for the child, such as drug and alcohol misuse, adult mental health issues and domestic abuse
- is misusing alcohol and other drugs themselves
- has returned home to their family from care
- is at risk of 'honour'-based abuse such as Female Genital Mutilation or Forced Marriage
- is a privately fostered child, and
- is persistently absent from education, including persistent absences for part of the school day.

Vulnerable Pupils

Particular vigilance will be exercised in respect of pupils who are subject to Child Protection Plan and any incidents or concerns involving these children will be reported immediately to the allocated Social Worker (and confirmed in writing; copied to the LA's Schools Safeguarding Coordinator).

If the pupil in question is a Looked-After child, this will also be brought to the notice of the Designated Person with responsibility for children in public care. The DSL will work with the Senior Leadership team regarding Looked-after and Previously Looked-after Children to discuss how funding can be best used to support the progress of looked after children in the school and meet the needs identified in the child's personal education plan.

The DSL will also work with the Senior Leadership Team to promote the educational achievement of previously looked after children. We note the DfE's statutory guidance Designated teacher for looked-after and previously looked-after children. Local authorities should share with our school/setting the fact a child has a social worker, and the DSL will hold and use this information so that decisions can be made in the best interests of the child's safety, welfare and educational outcomes. This will be considered as a matter of routine. There are clear powers to share this information under existing duties on both local authorities and schools and colleges to safeguard and promote the welfare of children.

Where children need a social worker, this will inform decisions about safeguarding (for example, responding to unauthorised absence or missing education where there are known safeguarding risks) and about promoting welfare (for example, considering the provision of pastoral and/or academic support, alongside action by statutory services).

We acknowledge that children with special educational needs (SEN) and disabilities can face additional safeguarding challenges. We are aware that additional barriers can exist when recognising abuse and neglect in this group of children. This can include assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration; children with SEN and disabilities can be disproportionately impacted by things like bullying- without outwardly showing any signs; and communication barriers and difficulties in overcoming these barriers. If a pupil discloses that they have witnessed domestic abuse or it is suspected that they may be living in a household which is affected by family violence, this will be referred to the Designated Safeguarding Lead as a safeguarding issue.

The School also acknowledges the additional need for support and protection of children who are vulnerable by virtue of homelessness, refugee/asylum seeker status, the effects of substance abuse within the family, those who are young carers, mid-year admissions, pupils who are excluded from school and pupils where English is an additional language, particularly for very young children, using the translation service if necessary.

Children who are lesbian, gay, bi, or trans (LGBT)

The fact that a child or a young person may be LGBT is not in itself an inherent risk factor for harm. However, children who are LGBT can be targeted by other children. In some cases, a child who is perceived by other children to be LGBT (whether they are or not) can be just as vulnerable as children who identify as LGBT.

Risks can be compounded where children who are LGBT lack a trusted adult with whom they can be open. It is therefore vital that staff endeavour to reduce the additional barriers faced and provide a safe space for them to speak out or share their concerns with members of staff.

LGBT inclusion is part of the statutory Relationships Education, Relationship and Sex Education and Health Education curriculum and there is a range of support available to help schools counter homophobic, biphobic and transphobic bullying and abuse.

Talking to Pupils

Any member of the school who notices possible signs of abuse or who is approached should make it possible for the pupil to explain an injury, speak of personal experiences, which concern them or make a disclosure in a non-threatening environment. They should be reassured that they are believed and be told that further action may be taken, and the reasons given. Care must also be taken to reassure the young person that they are right to report the matter and that they are not to blame.

All staff should be aware that children may not feel ready or know how to tell someone that they are being abused, exploited, or neglected, and/or they may not recognise their experiences as harmful. For example, children may feel embarrassed, humiliated, or being threatened. This could be due to their vulnerability, disability and/or sexual orientation or language barriers. This should not prevent staff from having a professional curiosity and speaking to the DSL if they have concerns about a child. It is also important that staff determine how best to build trusted relationships with children and young people which facilitate communication.

Training

Staff members will receive appropriate safeguarding and child protection training (including online safety, Prevent and Child-on-Child abuse) which is regularly updated in line with LSCP advice. In addition, all staff members will receive safeguarding and child protection updates (for example, via email and staff meetings), as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children effectively.

All newly recruited staff (teaching and non-teaching) will be apprised of this policy and will be required to attend relevant LA or Safeguarding training. In addition, all new staff and temporary staff will be required to attend an induction session with the Designated Safeguarding Lead or their deputy prior to, or on their first day in the school. Furthermore, the following will also be covered within induction: role and identity of DSL, staff code of conduct, pupil behaviour policy, the school's safeguarding response to children missing education, on-line safety and the relevant part/s of KCSIE 2022

The Designated Safeguarding Lead (and their Deputies) will attend refresher training at least every two years. In addition to this formal training, their knowledge and skills will be refreshed (for example, via meetings, other designated safeguarding leads or simply taking time to read and digest safeguarding developments) at regular intervals, as required, but at least annually, to allow them to understand and keep up with any developments relevant to their role.

In addition, all staff will read Part one or Annex A of KCSIE 2022 and Annex B by school leaders and those who work directly with children.

Recruitment

Safer Recruitment and Safeguarding Checks

1. The School pays full regard to Keeping Children Safe in Education (Statutory guidance from the Department for Education issued in September-2022). Safer recruitment practice includes scrutinising applicants, verifying identity and academic or vocational qualifications, obtaining professional and character references, checking previous employment history, completing an on-line search and ensuring that a candidate has the health and physical capacity for the job. It also includes undertaking interviews and undertaking appropriate checks through the Disclosure and Barring Service (DBS).
2. All recruitment materials will include reference to the school's commitment to safeguarding and promoting the wellbeing of pupils.
3. The proprietor has undertaken Safer Recruitment Training. She will be involved in staff /volunteer recruitment processes and sit on the recruitment panel.
4. See Safer Recruitment Policy

Safeguarding children and whistleblowing

A member of staff or volunteer who has concerns about the behaviour of another member of staff towards a child can be confident that such concerns will be thoroughly investigated. All staff working within our school must report any potential safeguarding concerns about an individual behaviour towards children immediately. Allegations or concerns about colleagues and visitors must be reported directly to the Head Teacher unless the concern relates to Head Teacher. If the concern relates to the Head Teacher, it must be reported immediately to the LADO, without the Headteacher being informed.

Volunteers

Any parent or other person/organisation engaged by the school to work in a voluntary capacity with pupils will be subject to all reasonable vetting procedures and Criminal Records Checks. Under no circumstances a volunteer in respect of whom no checks have been obtained will be left unsupervised or allowed to work in regulated activity. Volunteers who on an unsupervised basis teach or look after children regularly, or provide personal care on a one-off basis in our school are deemed to be in regulated activity.

We will obtain an enhanced DBS certificate (which will include barred list information) for all volunteers who are new to working in regulated activity. Existing volunteers in regulated activity do not have to be re-checked if they have already had a DBS check (which includes barred list information). However, we may conduct a repeat DBS check (which will include barred list information) on any such volunteer should we have any concerns. The law has removed supervised volunteers from regulated activity. There is no legal requirement to obtain a DBS certificate for volunteers who are not in regulated activity and who are supervised regularly and on an ongoing day to day basis by a person who is in regulated activity, but an enhanced DBS check without a barred list check may be requested following a risk assessment.

Further information on checks on volunteers can be found in Part three of the DfE guidance “Keeping Children Safe in Education 2021” (KCSIE 2021). Volunteers will be subject to the same code of conduct as paid employees of the school. Voluntary sector groups that operate within this school or provide off-site services for our pupils or use school facilities will be expected to adhere to this policy or operate a policy which is compliant with the procedures adopted by the Southwark Safeguarding Children Partnership (SSCP). Premises lettings and loans are subject to acceptance of this requirement.

Staff Code of Conduct

All staff (paid and voluntary) are expected to adhere to a code of conduct in respect of their contact with pupils and their families. Please see our Code of Conduct Policy.

The Teachers’ Standards 2012 state that all teachers, including headteachers, should safeguard children’s wellbeing and maintain public trust in the teaching profession as part of their professional duties. Children will be treated with respect and dignity and no punishment, detention, restraint, sanctions or rewards are allowed outside of those detailed in the school’s ‘Behaviour Policy’.

Whilst it would be unrealistic and undesirable to preclude all physical contact between adults and children, staff are expected to exercise caution and avoid placing themselves in a position where their actions might be open to criticism or misinterpretation.

Where incidents occur which might otherwise be misconstrued, or in the exceptional circumstances where it becomes necessary to physically restrain a pupil for their own protection or others’ safety, this will be appropriately recorded and reported to the Principal and parents. Any physical restraint used will comply with DfE guidance “Use of reasonable force in schools”. Except in cases of emergency, first aid will only be administered by qualified First Aiders. If it is necessary for the child to remove clothing for first aid treatment, there will, wherever possible, be another adult present. All first aid treatment and non-routine changing or personal care will be recorded and shared with parents/carers at the earliest opportunity.

Children requiring regular medication or therapies for long-term medical conditions will be made the subject of a Medical Plan that has been agreed with the parents and health authority.

For their own safety and protection, staff should exercise caution in situations where they are alone with pupils. Other than in formal teaching situations; for example during musical instrument tuition, the door to the room in which the 1:1 coaching, counselling or meeting is taking place should be left open. Where this is not practicable because of the need for confidentiality, another member of staff will be asked to maintain a presence nearby and a record will be kept of the circumstances of the meeting.

School staff should also be alert to the possible risks that might arise from social contact with pupils outside of the school. Visits/telephone calls by pupils to the homes of staff members should only occur in exceptional circumstances and with the prior knowledge and approval of the Principal. Any unplanned contact of this nature or suspected infatuations or “crushes” will be reported to the Principal.

Staff supervising off-site activities or school journeys will be provided with a school mobile number as a point of contact for parents and carers. Staff will only use the school’s digital technology resources and systems for professional purposes or for uses deemed ‘reasonable’ by the Head and Governing Body.

Staff will only use the approved school email, school learning platform or other school approved communication systems with pupils or parents/carers and only communicate with them on appropriate school business and will not disclose their personal telephone numbers and email addresses to pupils or parents/carers.

Staff will not use personal cameras (digital or otherwise) or camera phones for taking and transferring images of pupils or staff without permission and will not store images at home.

Staff should be aware of the school’s whistle-blowing procedures and share immediately any disclosure or concern that relates to a member of staff with the Headteacher or one of the Designated Deputy Safeguarding Leads if the Principal is not available and nothing should be said to the colleague involved. It should be shared with the Chair of Governors if it relates to the Principal.

Talking to Pupils

Any member of the school who notices possible signs of abuse or who is approached should make it possible for the pupil to explain an injury, speak of personal experiences, which concern them or make a disclosure in a non-threatening environment. They should be reassured that they are believed and be told that further action may be taken, and the reasons given. Care must also be taken to reassure the young person that they are right to report the matter and that they are not to blame.

All staff should be aware that children may not feel ready or know how to tell someone that they are being abused, exploited, or neglected, and/or they may not recognise their experiences as harmful. For example, children may feel embarrassed, humiliated, or being threatened. This could be due to their vulnerability, disability and/or sexual orientation or language barriers. This should not prevent staff from having a professional curiosity and speaking to the DSL if they have concerns about a child. It is also important that staff determine how best to build trusted relationships with children and young people which facilitate communication.

Listening to Pupils

We monitor pupil welfare through Student Performance Records. This is monitored weekly by Head Teacher and Lead Teacher. Staff are instructed to record all pastoral incidents no matter how small on Students Records and to report incidents of concern to Safe Guarding Lead, Designated Safeguarding Lead and Lead Teacher via e mail and verbally. Accurate record keeping, speaking to parents and notifying appropriate agencies are at the core of our Pupil Welfare Policy.

The voice of the child is paramount; therefore, our pupils are actively involved in Student Parliament. Student Parliament are responsible for leading assemblies and charity events, listening to their peers and sharing their ideas with teacher designated to Student Parliament. Children's Voice is then shared with Principal and Lead Teacher.

Students in our school are frequently reminded that all adults are here to support them and to speak to us about any worries or to use the worry jar. There is adequate information displayed to signpost students to external agencies in the IT suite.

Mobile Phones

Pupils must hand their mobile phones in at the start of the day and collect at the end.

Contractors

Building contractors who are engaged by or on behalf of the school to undertake works on site will be made aware of this policy and the reasons for this. Long-term contractors who work regularly in the school during term time will be asked to provide their consent for DBS checks to be undertaken. These checks will be undertaken when individual risk assessments by the Leadership Team deem this to be appropriate.

During major works, when large numbers of workers and subcontractors may be on site during term time, Health and Safety risk assessments will include the potential for contractors or their employees to have direct access to pupils in non-teaching sessions. All contractors and subcontractors will be issued with copies of the school's code of conduct for staff.

Individuals and organisations that are contracted by the school to work with or provide services to pupils will be expected to adhere to this policy and their compliance will be monitored. Any such contractors will be subject to the appropriate level of DBS check, if any such check is required (for example because the contractor is carrying out teaching or providing some type of care for or supervision of children regularly).

Contractors for whom an appropriate DBS check has not been undertaken will be supervised if they will have contact with children. Under no circumstances we will allow a contractor in respect of whom no checks have been obtained to work unsupervised, or engage in regulated activity. We will determine the appropriate level of supervision depending on the circumstances. We will always check the identity of contractors and their staff on arrival at the school.

Complaints/Allegations made Against Staff

Allegations of abuse against staff (including DSL), supply teachers, volunteers and the Headteacher

We follow the DfE guidance KCSIE, Part 3, when dealing with allegations made against staff, supply teachers and volunteers, including where they have behaved, or may have behaved in a way that indicates they may not be suitable to work with children (transferrable risk). All allegations made against a member of staff, including supply staff and volunteers, including contractors working on site, will be dealt with quickly and fairly and in a way that provides effective protection for the child while at the same time providing support for the person against whom the allegation is made. Allegations will be referred to the LADO for investigation if they meet the threshold (KCSIE). We will work with the LADO and other relevant agencies to support any investigations.

1. In case where an allegation is made against a member of staff, supply staff or volunteer, this should immediately be referred to the Headteacher who will contact the LADO without delay to seek advice on investigation
2. In case where an allegation is made against the DDSL, the Headteacher should be informed immediately and will contact the LADO without delay to seek advice on investigation
3. Any concerns about the head teacher should be referred to the LADO without delay
5. Discussions should be recorded in writing, and any communication with both the individual and the parents of the child/children agreed.
6. Every effort will be made to maintain confidentiality and guard against unwanted publicity. These restrictions apply to the point where the accused person is charged with an offence, or the DFE/TRA publish information about an investigation or decision in a disciplinary case.
7. If an allegation is made against anyone working with children in the school, all unnecessary delays will be eradicated. The school will not undertake its own investigations of allegations without prior consultation with the LADO(s), or in the most serious cases, the police, so as not to jeopardise statutory investigations.
8. The school is committed to report promptly to the DBS any person (whether employed, contracted, a volunteer or student) whose services are no longer used for regulated activity and the DBS referral criteria are met, that is, they have caused harm or posed a risk of harm to a child. The school will also consider making a referral to the Teaching Regulation Agency (TRA) where a teacher has been dismissed or would have been dismissed if he/she had not resigned and a prohibition order may be appropriate.
9. The school will consider carefully whether the circumstances of the case warrant suspension or whether alternative arrangements will be put in place. The school will give due weight to the views of the LADO, KCSIE and WT when making a decision about suspension.
10. A person who is the subject of an allegation will receive effective support from the School, which will do all that it reasonably can to deal with the allegation as quickly as possible, but in a way that is both fair and consistent. The School will inform the person as soon as possible of the allegation and the likely course of action. Advice will be also provided on contacting trade union officials and other sources of support.

11. If an allegation is made against a supply teacher, the school will take the lead whilst keeping the supply agency fully informed and involved. In no circumstances would we cease to use supply staff for safeguarding reasons without involving the agency and/or other authorities.

Levels of thresholds

KCSIE (2022) has two sections covering two levels of allegation/concern and should be referred to as the source document:

- allegations that may meet the harms threshold;
- allegations/concerns that do not meet the harms threshold ('low level concerns').

Allegations that may meet the harms threshold

These are allegations that might indicate that a person would pose a risk of harm if they continue to work in their present position, or in any capacity with children in our school. If it has been alleged that any member of staff including supply teachers, volunteers and contractors has:

- behaved in a way that has harmed a child, or may have harmed a child and/or;
- possibly committed a criminal offence against or related to a child and/or;
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children: and/or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children (including because of transferable risk- ie behaviour that has happened outside of school.)

If we identify:

- that a child has been harmed,
- that there may be an immediate risk of harm to a child, or
- if the situation is an emergency,

then we contact children's social care and as appropriate the police immediately in accordance with the processes set out in part one of *KCSIE*.

If an allegation is made, it is essential to looking after the welfare of the child and also investigate and support the person subject to the allegation. We will conduct basic enquiries to establish facts that will help then determine whether there is any foundation to the allegation.

Further, detailed guidance can be found in *KSCIE* (2022) on:

- when to inform the individual of the allegation;
- what to do if there is cause to suspect a child is suffering or is likely to suffer significant harm;

- where the case manager is concerned about the welfare of other children in the community of the member of staff's family;
- where it is clear or decided that an investigation by the police or children's social care is unnecessary;
- where the initial discussion leads to no further action;
- where further enquiries are necessary (including where there is a lack of appropriate resource within the school);
- suspension (which should not be an automatic response when an allegation is reported);
- support (of the child(ren) involved, employees of the school subject to an allegation and the parents or carers of any child involved);
- confidentiality and information-sharing;
- allegation outcomes;
- following a criminal investigation or prosecution;
- unsubstantiated, unfounded, false or malicious accusations;
- returning to work;
- resignations and settlement agreements;
- record keeping;
- references;
- learning lessons;
- non-recent allegations.

As soon as basic enquiries and initial information have been conducted to establish facts and help determine whether there is any foundation to the allegation, the LADO will be promptly contacted. There will then be a discussion with the LADO(s) about the allegation which will consider the nature, content and context and agree a course of action including any involvement of the police. GDPR cannot be allowed to stand in the way of safeguarding children. Discussions should be recorded in writing, and any communication with both the individual and the parents of the child/children agreed. Schools should give due weight to the views of the LADO, *KCSIE* and *WT* when making a decision about suspension and whether the circumstances warrant it or if alternative arrangements should be put in place.

Record Keeping

Records concerning allegations of abuse must be preserved for the term of the Independent Inquiry into Child Sexual Abuse and at least until the accused has reached normal pension age or for 10 years from the date of the allegation if it is longer. For all allegations, other than those found to have been malicious or false, the following information must be kept on the file of the person accused:

- a clear and comprehensive summary of the allegation;
- details of how the allegation was followed up and resolved;
- a note of any action taken, and decisions reached and (new) whether the outcome was substantiated, unsubstantiated or unfounded;
- a copy provided to the person concerned, where agreed by children's social care or the police
- a declaration on whether the information will be referred to in any future reference

Substantiated allegations should from September 2021 be included in references, provided that the information is factual and does not include opinions.

Concerns that do not meet the harm threshold ('low-level concerns')

Along with the staff code of conduct and whistleblowing policy, this policy makes clear the importance of sharing ANY concerns that staff may have. These may arise from a variety of sources, including suspicion, complaint, a disclosure (by child or adult) or during vetting checks.

KCSIE 2022 describes it as critical that a culture is created in which all concerns about adults are shared responsibly and with the right person, recorded and dealt with appropriately. This should enable an open and transparent culture, enable the early identification of concerning, problematic or inappropriate behaviour, minimise the risk of abuse, ensure that adults working in schools are clear about and act within professional boundaries in accordance with the values and ethos of the institution, and protect those working in or on behalf of schools from potential false allegations or misunderstandings.

A low-level concern is 'any concern – no matter how small, and even if no more than causing a sense of unease or a 'nagging doubt' – that an adult working in or on behalf of the school may have acted in a way that:

- is inconsistent with the staff code of conduct, including inappropriate contact outside of work, and
- does not meet the allegations threshold or is otherwise not considered serious enough to consider a referral to the LADO.'

These behaviours can exist on a wide spectrum, from inadvertent to that which is ultimately intended to enable abuse. They include, for example:

- being over friendly with children;
- having favourites;
- taking photographs of children on their mobile phone;
- engaging with children on a one-to-one basis in a secluded area or behind a closed door

- using inappropriate sexualised, intimidating or offensive language.

Low-level concerns about a member of staff should be reported to the headteacher. Staff should feel confident to self-refer where, for example, they have found themselves in a situation which could be misinterpreted, might appear compromising to others, and/or on reflection they believe they have behaved in such a way that they consider falls below the expected professional standards.. Low-level concerns about someone employed by a supply agency or contractor should be shared with the head, the concern recorded, and their employer notified so that potential patterns of inappropriate behaviour can be identified.

Where a third party has raised the concern, the headteacher should collect as much evidence as possible by speaking:

- directly to the person who raised the concern (if known);
- to the individual involved and any witnesses.

The headteacher should record all low-level concerns in writing. This should include:

- details of the concern;
- the context in which it arose;
- evidence collected by the DSL where the concern has been raised via a third party;
- the decision categorising the type of behaviour;
- action taken;
- the rationale for decisions and action taken; the name of the individual sharing the concerns (respecting any wish to remain anonymous as far as possible)

The records must be kept confidential, held securely and comply with the Data Protection Act 2018 and the UK GDPR. They should be reviewed so that potential patterns of concerning, problematic or inappropriate behaviour can be identified. Where such a pattern is identified, the school should either take action through its disciplinary procedures or, if it meets the harms threshold, refer to the LADO. *KCSIE* specifies that, 'Consideration should also be given to whether there are wider cultural issues within the school that enabled the behaviour to occur and where appropriate policies could be revised or extra training delivered to minimise the risk of it happening again.' It is recommended that schools retain this information at least until the individual leaves their employment.

Detailed guidance is provided in *KCSIE* as to when a low-level concern should be referred to in a reference.

More detailed guidance and case studies on low-level concerns are available in [Developing and implementing a low-level concerns policy](#) (farrer.co.uk).

In cases where the Principal is the subject of the allegation or concern, they will be reported directly to the LADO, in order that they may activate the appropriate procedures.

Records

Brief and accurate written notes will be kept of all incidents and child protection or child in need concerns relating to individual pupils. These notes are significant especially if the incident or the concern does not lead to a referral to other agencies. This information may be shared directly with other agencies as appropriate. All contact with parents and external agencies will be logged and these will be kept as CP records.

The school will take into account the views and wishes of the child who is the subject of the concern but staff will be alert to the dangers of colluding with dangerous “secrets”. Child protection records are not open to pupils or parents. All CP records are kept securely by the Designated Safeguarding Lead and separately from educational records. They may only be accessed by the Designated Safeguarding Lead, their Deputies and the senior managers of the school. The content of Child Protection Conference or Review reports prepared by the school will follow the headings recommended by Children’s Services and will, wherever possible, be shared with the parents/carers in advance of the meeting.

Child Protection records will be sent to receiving schools separately from the main pupil file and under a confidential cover when pupils leave the school, ensuring secure transit and a confirmation of receipt will be obtained. In addition to the child protection file, the DSL will also consider if it would be appropriate to share any information with the new school or college in advance of a child leaving. For example, information that would allow the new school or college to continue supporting victims of abuse and have that support in place for when the child arrives.

When we receive child protection records from other schools, we will ensure key staff such as the DSL and DDSL are aware. If a pupil is withdrawn from the school having not reached the normal date of transfer; due to a family move or any other reason, all efforts will be made to identify any new address and the school to which they are being admitted and to ensure that their educational records are sent without delay to the child’s new school.

If this school receives educational records concerning a child who is not registered with us, the records will be returned promptly to the sending school with a note, advising them to refer to their LA’s Children’s Services Department. A child’s name will only be removed from the School’s Admissions Register in accordance with the Pupil Registration Regulations or with the authorisation of a Team Manager in the Early Help Service.

We will inform the Local Authority when we are about to add or delete a pupil’s name from the school admission register for any reason in line with Southwark’s Children Missing Education (CME) Protocol. When a pupil ceases to be registered at this school and becomes a registered pupil at another school in England or Wales, we will send a Common Transfer File (CTF) to the new school via DfE’s secure internet system called school2school. We will upload CTFs of pupils who have left but their destination or next school is unknown or the child has moved abroad or transferred to a non-maintained school to a searchable area of the school2school website commonly referred to as the ‘Lost Pupil Database’.

If a pupil arrives in our school and the previous school is unknown, we will search the database for any record of the child. The school will require documentary proof as to the identity of pupils presented for admission. If there is any doubt as to the identity of a pupil, advice will be sought from the local authority and other statutory agencies, as appropriate.

We will maintain accurate and up to date records of those with Parental Responsibility and emergency contacts. We will hold more than one emergency contact number for each pupil or student to make contact with a responsible adult when a child missing education is also identified as a welfare and/or

safeguarding concern. Pupils will only be released to the care of those with Parental Responsibility or someone acting with their written consent.

Safety in School

No internal doors to classrooms will be locked whilst pupils are present in these areas. Entry to school premises will be controlled by doors that are secured physically or by constant staff supervision or video surveillance. Authorised visitors to the school will be logged into and out of the premises and will be asked to wear their identity badges or be issued with school visitor badges. Unidentified visitors will be challenged by staff or reported to the Principal or administrators/school office. Carelessness in closing any controlled entrance will be challenged.

The presence of intruders and suspicious strangers seen loitering near the school or approaching pupils, will be reported to the Police by calling 101 or 999, depending on the circumstances and the urgency of the case so that if police stops these individuals, they can be spoken to about what they were doing and dealt with accordingly. Brief information about the incident will be sent to LA's Schools Safeguarding Coordinator with a view to alerting other local schools in liaison with the police and through appropriate systems.

Parents, carers or relatives may only take still or video photographic images of pupils in school or on school-organised activities with the prior consent of the school and then only in designated areas. Images taken must be for private use only. Recording and/or photographing other than for private use would require the consent of the other parents whose children may be captured on film. Without this consent the Data Protection legislation would be breached. If parents do not wish their children to be photographed or filmed and express this view in writing, their rights will be respected.

Curriculum

Nazene Danielle School of Performing Arts (NDSOPA) acknowledges the important role that the curriculum can play in the prevention of abuse and in the preparation of our pupils for the responsibilities of adult life and citizenship. We will ensure that children are taught about safeguarding, including online safety and will consider this as part of providing a broad and balanced curriculum.

It is expected that all curriculum coordinators will have the opportunities that exist in their area of responsibility for promoting the welfare and safety of pupils. As appropriate, the curriculum will be used to build resilience, help pupils to keep safe and to know how to ask for help if their safety is threatened.

Working in Partnership with Parents

It is our policy to work in partnership with parents or carers to secure the best outcomes for our children. We will therefore communicate as clearly as possible about the aims of this school.

- We will use clear statements in our correspondence.
- We will liaise with agencies in the statutory, voluntary and community sectors and locality teams that are active in supporting families.

- We will be alert to the needs of parents/carers who do not have English as their first language and will utilise the translation services as necessary.
- We will make available a copy of this policy to any parent who requests it.
- We will keep parents informed as and when appropriate

Monitoring and Evaluation

The proprietor will monitor the safeguarding arrangements in the school to ensure that these arrangements are having a positive impact on the safety and welfare of children. This will be evaluated on the basis of evidence of:

- the extent to which a positive culture and ethos is created where safeguarding is an important part of everyday life in the school, backed up by training at every level
- the content, application and effectiveness of safeguarding policies and procedures, and safer recruitment and vetting processes
- the quality of safeguarding practice, including evidence that staff are aware of the signs that children may be at risk of harm either within the setting or in the family or wider community outside the setting
- the timeliness of response to any safeguarding concerns that are raised
- the quality of work to support multi-agency plans around the child.

Role of the Designated Safeguarding Lead

Governing bodies and proprietors should ensure an appropriate senior member of staff, from the school or college leadership team, is appointed to the role of designated safeguarding lead. The designated safeguarding lead should take lead responsibility for safeguarding and child protection (including online safety). This should be explicit in the role holder's job description.

The designated safeguarding lead should have the appropriate status and authority within the school or college to carry out the duties of the post. The role of the designated safeguarding lead carries a significant level of responsibility, and they should be given the additional time, funding, training, resources and support they need to carry out the role effectively. Their additional responsibilities include providing advice and support to other staff on child welfare, safeguarding and child protection matters, taking part in strategy discussions and inter-agency meetings, and/or supporting other staff to do so, and contributing to the assessment of children.

Deputy designated safeguarding leads

It is a matter for individual schools and colleges as to whether they choose to have one or more deputy designated safeguarding leads. Any deputies should be trained to the same standard as the designated safeguarding lead and the role should be explicit in their job description. Whilst the activities of the designated safeguarding lead can be delegated to appropriately trained deputies, the ultimate lead responsibility for child protection, as set out above, remains with the designated safeguarding lead, this lead responsibility should not be delegated.

Availability

During term time the designated safeguarding lead (or a deputy) should always be available (during school or college hours) for staff in the school or college to discuss any safeguarding concerns. Whilst generally

speaking the designated safeguarding lead (or a deputy) would be expected to be available in person, it is a matter for individual schools and colleges, working with the designated safeguarding lead, to define what “available” means and whether in exceptional circumstances availability via phone and or Skype or other such media is acceptable. It is a matter for individual schools and colleges and the designated safeguarding lead to arrange adequate and appropriate cover arrangements for any out of hours/out of term activities.

Manage referrals

The designated safeguarding lead is expected to refer cases:

- of suspected abuse and neglect to the local authority children’s social care as required and support staff who make referrals to local authority children’s social care
- to the Channel programme where there is a radicalisation concern as required and support staff who make referrals to the Channel programme
- where a person is dismissed or left due to risk/harm to a child to the Disclosure and Barring Service as required, and
- where a crime may have been committed to the Police as required. NPCC - When to call the police should help understand when to consider calling the police and what to expect when working with the police.

Working with others

The designated safeguarding lead is expected to:

- act as a source of support, advice and expertise for all staff
- act as a point of contact with the safeguarding partners
- liaise with the headteacher or principal to inform him or her of issues- especially ongoing enquiries under section 47 of the Children Act 1989 and police investigations. This should include being aware of the requirement for children to have an Appropriate Adult. Further information can be found in the Statutory guidance - PACE Code C 2019.
- as required, liaise with the “case manager” (as per Part four) and the local authority designated officer(s) (**LADO: Mark Goddard - 07716702039 RISK MANAGER or Pauline Thrubsham 07841727309**) for child protection concerns in cases which concern a staff member
- liaise with staff (especially teachers, pastoral support staff, school nurses, IT technicians, senior mental health leads and special educational needs co-ordinators (SENCO’s), or the named person with oversight for SEND in a college and senior mental health leads) on matters of safety and safeguarding and welfare (including online and digital safety) and when deciding whether to make a referral by liaising with relevant agencies so that children’s needs are considered holistically
- liaise with the senior mental health lead and, where available, the mental health support team, where safeguarding concerns are linked to mental health
- promote supportive engagement with parents and/or carers in safeguarding and promoting the welfare of children, including where families may be facing challenging circumstances
- work with the headteacher and relevant strategic leads, taking lead responsibility for promoting educational outcomes by knowing the welfare, safeguarding and child protection issues that children in

need are experiencing, or have experienced, and identifying the impact that these issues might be having on children's attendance, engagement and achievement at school or college¹⁵⁵. This includes:

o ensuring that the school or college knows who its cohort of children who have or have had a social worker are, understanding their academic progress and attainment, and maintaining a culture of high aspirations for this cohort, and

o supporting teaching staff to provide additional academic support or reasonable adjustments to help children who have or have had a social worker reach their potential, recognising that even when statutory social care intervention has ended, there is still a lasting impact on children's educational outcomes.

Information sharing and managing the child protection file

The designated safeguarding lead is responsible for ensuring that child protection files are kept up to date.

Information should be kept confidential and stored securely. It is good practice to keep concerns and referrals in a separate child protection file for each child.

Records should include:

- a clear and comprehensive summary of the concern
- details of how the concern was followed up and resolved
- a note of any action taken, decisions reached and the outcome.

We recognise that in some settings there may be a different strategic lead for promoting the educational outcomes of children who have or have had a social worker, particularly in larger schools or colleges. Where this is the case, it is important that the DSL works closely with the lead to provide strategic oversight for the outcomes of these children and young people.

They should ensure the file is only accessed by those who need to see it and where the file or content within it is shared, this happens in line with information sharing advice as set out in Part one and Part two of this guidance.

Where children leave the school or college (including in year transfers) the designated safeguarding lead should ensure their child protection file is transferred to the new school or college as soon as possible, and within 5 days for an in-year transfer or within the first 5 days of the start of a new term. This should be transferred separately from the main pupil file, ensuring secure transit, and confirmation of receipt should be obtained. Receiving schools and colleges should ensure key staff such as designated safeguarding leads and special educational needs co-ordinators (SENCO's) or the named person with oversight for SEND in colleges, are aware as required.

Lack of information about their circumstances can impact on the child's safety, welfare and educational outcomes. In addition to the child protection file, the designated safeguarding lead should also consider if it would be appropriate to share any additional information with the new school or college in advance of a child leaving to help them put in place the right support to safeguard this child and to help the child thrive in the school or college. For example, information that would allow the new school or college to continue supporting children who have had a social worker and been victims of abuse and have that support in place for when the child arrives.

Raising awareness

The designated safeguarding lead should:

- ensure each member of staff has access to, and understands, the school's or college's child protection policy and procedures, especially new and part-time staff
- ensure the school's or college's child protection policy is reviewed annually (as a minimum) and the procedures and implementation are updated and reviewed regularly, and work with governing bodies or proprietors regarding this
- ensure the child protection policy is available publicly and parents know that referrals about suspected abuse or neglect may be made and the role of the school or college in this
- link with the safeguarding partner arrangements to make sure staff are aware of any training opportunities and the latest local policies on local safeguarding arrangements, and
- help promote educational outcomes by sharing the information about the welfare, safeguarding and child protection issues that children who have or have had a social worker are experiencing with teachers and school and college leadership staff.

Training, knowledge and skills

The designated safeguarding lead (and any deputies) should undergo training to provide them with the knowledge and skills required to carry out the role. This training should be updated at least every two years. The designated safeguarding lead (and any deputies) should also undertake Prevent awareness training. Training should provide designated safeguarding leads with a good understanding of their own role, how to identify, understand and respond to specific needs that can increase the vulnerability of children, as well as specific harms that can put children at risk, and the processes, procedures and responsibilities of other agencies, particularly local authority children's social care, so they:

- understand the assessment process for providing early help and statutory intervention, including local criteria for action and local authority children's social care referral arrangements
- have a working knowledge of how local authorities conduct a child protection case conference and a child protection review conference and be able to attend and contribute to these effectively when required to do so
- understand the importance of the role the designated safeguarding lead has in providing information and support to local authority children social care in order to safeguard and promote the welfare of children
- understand the lasting impact that adversity and trauma can have, including on children's behaviour, mental health and wellbeing, and what is needed in responding to this in promoting educational outcomes
- are alert to the specific needs of children in need, those with special educational needs and disabilities (SEND), those with relevant health conditions and young carers
- understand the importance of information sharing, both within the school and college, and with the safeguarding partners, other agencies, organisations and practitioners
- understand and support the school or college with regards to the requirements of the Prevent duty and are able to provide advice and support to staff on protecting children from the risk of radicalisation

- are able to understand the unique risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school or college
- can recognise the additional risks that children with special educational needs and disabilities (SEND) face online, for example, from bullying, grooming and radicalisation and are confident they have the capability to support children with SEND to stay safe online
- obtain access to resources and attend any relevant or refresher training courses, and
- encourage a culture of listening to children and taking account of their wishes and feelings, among all staff, in any measures the school or college may put in place to protect them.

In addition to the formal training set out above, their knowledge and skills should be refreshed (this might be via e-bulletins, meeting other designated safeguarding leads, or simply taking time to read and digest safeguarding developments) at regular intervals, as required, and at least annually, to allow them to understand and keep up with any developments relevant to their role.

Providing support to staff

Training should support the designated safeguarding lead in developing expertise, so they can support and advise staff and help them feel confident on welfare, safeguarding and child protection matters. This includes specifically to:

- ensure that staff are supported during the referrals processes, and
- support staff to consider how safeguarding, welfare and educational outcomes are linked, including to inform the provision of academic and pastoral support.

Understanding the views of children

It is important that all children feel heard and understood. Therefore, designated safeguarding leads (and deputies) should be supported in developing knowledge and skills to:

- encourage a culture of listening to children and taking account of their wishes and feelings, among all staff, and in any measures the school or college may put in place to protect them, and,
- understand the difficulties that children may have in approaching staff about their circumstances and consider how to build trusted relationships which facilitate communication.

Holding and sharing information

The critical importance of recording, holding, using and sharing information effectively is set out in Parts one, two and five of this document, and therefore the designated safeguarding lead should be equipped to:

- understand the importance of information sharing, both within the school and college, and with other schools and colleges on transfer including in-year and between primary and secondary education, and with the safeguarding partners, other agencies, organisations and practitioners
- understand relevant data protection legislation and regulations, especially the Data Protection Act 2018 and the UK General Data Protection Regulation (UK GDPR), and
- be able to keep detailed, accurate, secure written records of concerns and referrals and understand the purpose of this record-keeping.
